What Others Say About CRKI's Online Courses

"Virtual Workshops and CRKInteractive have worked together for several years and we are proud to recommend CRKInteractive's online courseware.

The Online "Customer Focused" courseware from CRKInteractive dealing with sales, customer service and management skills development is fresh, relevant and often humorous. The presentation style is professional, but light and enjoyable. We believe that this expertise has been successfully translated into elearning programs that can help new and experience professionals improve their skills.

It is our opinion that the elearning programs offered by CRKInteractive are "best-in-class"! I am proud to work with CRKInteractive and recommend the firm's programs to our clients."

**President, Virtual Workshops Group
Integrated Media Concepts, Inc.**

"I want to thank you...for your highly interactive, engaging, entertaining, and most importantly educational instructional designs. Your Online Customer Focused courseware has helped me achieve my customers' goals and expectations for more than a year in team building, sales and service.

The courses have been successful because they are only 90-minutes in length divided into brief lessons so you don't have to complete at one time. The animation and audio is entertaining and the exercises throughout the course test your knowledge. As a trainer, I also appreciate the knowledge assessment test, included in the last lesson, and the Certificate of Completion."

**President
Operations Service Systems**

"I recently took two of your online business courses and wanted you to know how impressed I was with the content provided by CRK Interactive.

I've taken several online courses in the past and found your courseware to be extremely informative and highly interactive.
